Index the last ruling new members could not be pledged or initiated but the sororities could continue to function with their present members.

The non-democratic phase of the sorority question prompted the faculty's action, it was said. It is claimed that the sororities are objectionable because of the stress put on membership and the subsequent disappointment and embarrassment caused to students who failed to "make" one. Other objections registered by the heads of the school are "polities" for class offices and "cliques" among the sororities were temporarily barred some years ago. The students then resorted to secret clubs. In the agreement just signed, the sororities pledged themselves not to form secret clubs or continue to pledge and initiate members.

The bride, Anne Helen Marie, stately and graceful girl of just over the Duke of Orleans, in 1926, chose to go into exile from France as required by a law passed in 1886 allowed that the law would remain a dead letter as long as he did not be engage in political activities to the duke's unselfism and unflagging to the former ruling house to serve in the army at the fromer ruling house to serve in the army itself to the duke's unselfism and unflagging to just over the professional development and the subsequent disappointment assured him the law would remain a dead letter as long as he did not be engage in political activities to the duke's unselfism and unflagging to prove the duke's unselfism and unflagging to the duke's un

SEATS FOR SYMPHONY Scheme for Ford BENEFIT NUMBERED Car Is Reported

All seats for the benefit concert by the Atlanta Symphony orchestra, to be given at Keith's Georgia theater on Sunday afternoon, November 13, are numbered and reserved, so that those desiring special location can secure it by making their reservations at once, it was stated Thursday at the box office. The seat sale is being conducted daily at Phillips & Crew Piano company, Peachtree and Elkis street, with a heavy demand for seats marking the week so far.

In the past, individual seats for the local symphony concerts have not been numbered, but the change to the Georgia theater has made this possible. Therefore each ticket purchaser will get exactly the seat selected from the plat of the house to be seen at the box office.

This is, the only concert to be given New York, November 3.—(United News.)—Wall street and local automobile salesmen are discussing a fan-ciful rumor that Henry Ford is planed to Ford is so unique that it soon became the talk of the town. One newspaper, The Evening Post, print-ed all the details. found it very much to their liking and there is little doubt but that many prospective buyers will be ask-ing their dealers about it during the

next few days.

Under the plan, as discussed here.
Ford would place his marketing on
a "rental" basis. The customer would

pay \$150 down and \$12.50 a month maintenance for as long as he kept the car; actual sale of the car would never be complete.

At the end of the first year the "fenant" could have the car overhauled at a moderate cost or trade it in for a new machine—the \$12.50 to continue as long as it was in use.

The system would be known as the "Ford Monthly Club Plan." rivaling his "\$5 Down, \$5-a-Month" proposition adopted several years ago.

Lincoln cars, also manufactured by Ford, would be distributed similarly.

box office.

This is the only concert to be given by the local symphony this season. It is given as a benefit with the hope of wiping out a \$3,000 deficit left from last season, and thus wiping the slate clean for a new start with the season of 1928-29.

In addition to a special request program by the orchestra, Mrs. Anna Blake Morrison, famous piano soloist, will appear. The local harp ensemble pupils of Mrs. William Butt Griffith, which scored a success last season, is also on the program. Ford, would be distributed

No Cleaning Needed To Serve Fresh Fish; Use 40 Fathom Fish

There may be as good fish in the sea as 40-Fathom fish, but surely no better. Even the head of the house will pronounce this new form of fish as delicious as anything he might catch—and as fresh as though he had pulled it from the water the same day it is served.

And where using fish in its natural state means the remoyal of heads, tails and bones, scaling and cleaning in general, using the 40-Fathom variety entails no more trouble than placing these luscious fillets over the fire.

Fish prepared in this way is more economical, too. Here only what is used is paid for, while buying a whole fish means paying for bones and parts that are thrown away.

Every effort is made to get this fish to market as full of the real occan flaver as when it is pulled from the sea. The Bay State Fishing company, the producers of 40-Fathom fish, catch, clean and pack their fish the same day. Then it is surrounded by ice, but not frozen, and started on a hasty journey to its destination.

To housewives who like serving fish but dislike the task of preparing it, this newer and beger way of getting it from the market is a welcome discovery.

Don't damage your radio "A" battery by overcharging

The standard light socket "B" power supply is Balkite

The accepted, tried and proved light socket radio "B" power supply today is Balkite. Over 300,000 are in use. It is probably the longest-lived device in radio. The first Balkite "B" after 5 years' service is still in use and good as new. Three models - \$22.50, \$35 and \$42.50. Ask your dealer.

Use a Balkite Charger

Because of the reliability of batteries as a source of power the majority of radio sets in the country today are battery operated.

Since the introduction of trickle charging by Balkite storage "A" batteries have lost all their old inconvenience and can be charged automatically.

The one thing not to do to a storage "A" battery is to overcharge it. If you put an ordinary charger on continuous charge, and then go away and leave it, the result is an overcharge which if repeated very often will ruin the battery.

This is avoided with a Balkite

Charger. The Balkite Charger and the storage "A" battery are natural companions. Both require about the same amount of attention. Both are electrolytic in action. And the evaporation of water in the charger protects your battery from damage. If you leave your charger on too long, the water evaporates and shuts it off. There can be no overcharging. This feature is exclusive with Balkite.

Because of this feature, because it is noiseless, because it can be used during reception, because it has no tubes to wear out or replace, the Balkite Charger is today standard wherever batteries are used.

WHY BRICK-

Toughest Surface, Makes Cheapest Pavement Known

Cracks or ruts occur in most pavements-unless they are so constructed as to furnish a surface that will withstand the wear and tear of heavy traffic, and at the same time furnish a protection for its pavement

Ruts come in surfaces not designed to resist the softening action of heat. Surfaces not capable of keeping out water or resisting stresses due to temperature changes are liable to damage or destruction.

Paving brick makes the toughest wearing-surface known. It does not absorb water. Heat does not soften it; tire chains never dent it. Laid on

any good base and bound with asphalt, it is a surface absolutely weather-and-water-proof. Also, it is built with the resilience to take contracting, expanding, and traffic punishment without damage either to surface or base.

Hence, as the records show, it is the cheapest in the end.

"The A.B.C. of Good Paping," a taxpayer's manual, tells in words and pictures how engineers today build ever-wearing, lose cost, brick surfaced roads and streets. Address your request to National Paping Brick Manufacturers Association, 332 South Michigan Avenue, Chicago.

Find the Two Airplanes That Are Alike

No, they are not all alike! Two and only two are identical and are the TWO AIR-PLANES you are asked to find. Can you? To be sure, the 18 Airplanes all look alike, but look closer. How about their propellers? Some are black and some white. There are other differences, too. Only TWO airplanes are exact duplicates. Can you find them?

THE ATLANTA CONSTITU

offers an opportunity at this tremendous fortune to every man, woman and child -Join in the fascinating airplane Treasure Hunt-

Share In \$7,500.00 Cash Prizes

Find the TWO airplanes that are exact duplicates. At first glance they all look alike; but upon closer examination you will see that almost every one differs in some way from all the others. The difference may be in the stripes on the tail; while some have white radiators and others black. How about their propellers? They aren't all alike, are they? And the stars on the wings are arranged in different ways, too-a black with a white, two whites, or two

Make sure you have found the TWO airplanes that are exact duplicates, then send in your answer. Someone who finds the right airplanes is going to win a lot of money. Make that "someone" be YOU!

CASH FIRST PRIZE, \$3,000.00 Extra First Prize for Promptness, \$500.00 You Can Win \$3,500.00

I Have Said in My Heart

By IDAH McGLONE GIBSON **BRAINS**

It seems as though every girl and boy that one meets nowadays is thinking about *getting married. Some of them are quite serious about it, and others are frankly facetious.

Said one yesterday in my hearing, "I am going to add one more marriage to the divorce chances next month."
"Why do you think you run any chance of being divorced?" he

"Because," he answered, quickly, "I am going to marry a girl with brains, and that is always taking a long chance, but I love Louise in spite of her brains, and consequently I am going to take a chance."

I looked at the youth in mute surprise. Before I could recover m

astonishment he further explained, rather shamefacedly, "You see she is very pretty and she tells me that she can cook just as well as an ugly Is there a woman in this world, young or old, with a modicum of

gray matter behind her more or less lustrous eyes, who has not heard time and again that a brainy woman cannot be domestic? Is there anything about brains that will keep her from having energy

courage, self-reliance, absolute honesty, common sense and understanding? Does it not take brains to understand these attributes? Do brains preclude the possession of charity, purity of thought and act, and, above all, love of home?

Does it not take as much brains to make a home out of a house as it does to provide the home? If I were a manil would much prefer brains to beauty; grace of mind

to grace of body.

The brainiest girl is one who has the broadest toleration and the greatest forbearance, two of the most necessary qualities in a successful

True, a brainy woman does not always accept a man at his own valuation, but if her husband is worthy of her faith and trust, the bigger her brain the more completely will she pour out her heart; the more completely will she turn her attention to making her marriage successful, as she knows that only there her happiness lies.

Memo: The girl without brains cannot always appreciate her husband, but the girl with them knows that there is nothing that can take the place of home and children in a woman's life.

WOMEN-FREE!

You BUY 2 Boxes of Kotex for 98c You GET One Full Sized Box FREE

Thus you receive 3 boxes on payment of only 98c-Offer Limited—Act Promptly

Made to acquaint all women with the remarkable protective features of KOTEX-features found in no other sanitary accessory known

O show women the remarkable I difference and vastly greater protection of Kotex over any other sanitary accessory known, this unique offer is made . . . three regular 65c boxes of Kotex, a \$1.95 value. on payment of 98c.

Go today to any store in this city, or out of town, where Kotex is sold and take advantage of this opportunity. But do not delay. All dealers' stocks are limited. If you come late, you cannot be supplied.

The difference between Kotex and other sanitary pads

Kotex is utterly different from all other sanitary pads. There is no other "like" Kotex.

Kotex is the one and only sanitary pad filled with the super-absorbent Cellucotton wadding.

Thus Kotex has the amazing power of absorbing 16 times its own weight in moisture! Thus Kotex has 5 times the absorbency of the ordinary cotton-filled pad! Think what this means in protection.

Because of these exclusive features Kotex has changed the hygienic habits of the world. It has made sheerest frocks safe under the most trying hygienic handicap women know. Eight in ten betterclass women of America have adopted Kotex - for health's sake and for peace-of-mind.

Discards like tissue -No disposal problem

One uses Kotex, then discards itas easily as tissue. Thus no laundry. No problem of dis-

Deodorizes while it acts

Another factor is that KOTEX is scientifically permeated - under a process applied to no other sanitary pad - with a highly effective deodorant.

That means that Kotex deodorizes thoroughly and absolutely as it acts. Which banishes another oldtime fear of women.

More than a "sanitary pad"-True Scientific Protection

Kotex comes as the result of years of scientific experiment.

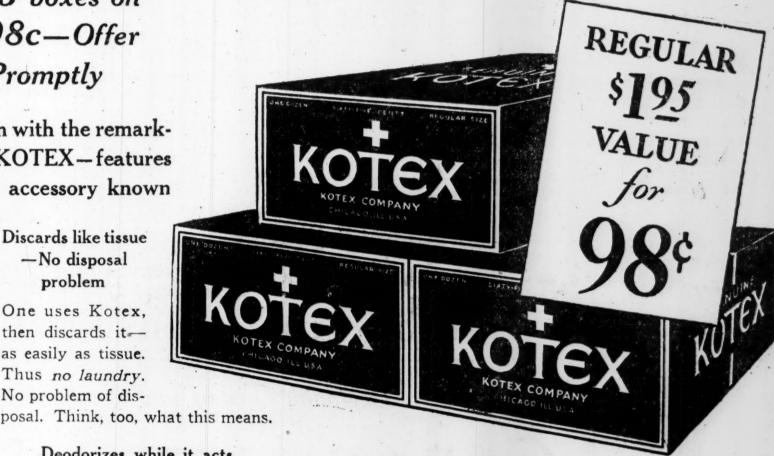

It is made under hospital standards of sanitation and safety.

It embodies scientific protection that is sure and positive . . . features unknown to any other sanitary accessory in the world today.

Accept this offer

Today accept the remarkable offer named above on Kotex.

Find out for yourself why millions of women use it. Find out why experts say, "Only Kotex itself is 'like' Kotex - Only Kotex itself is Kotex."

This amazing bargain now on display at your favorite store. Take advantage of this offer today

IMPORTANT!

Why gamble with substitutes hospitals have tried and rejected?

More than 75% of all recognized hospitals in America use Cellucotton absorbent wadding in their surgical departments - the same material that is used exclusively as a filler in Kotex pads.

Many hospitals have tried substitutes for Cellucotton wadding, but have returned to the exclusive use of this marvelous absorbent, which towers above all lowquality absorbents.

Good hospitals and reputable surgeons take no chances with their patients. Why then should you allow any merchant to substitute a pad made of inferior material when you wish the only original Kotex?

In spite of cheaper substitutes, hospitals have purchased at regular prices 1,441,152 Kotex pads this year for their patients. Doctors insist on Kotex for patients. Will you accept less?

Pepping Up the Jackets.

We are wont to wonder if the few hundred followers of the Gold and White of Georgia Tech who go to Nashville for the Vanderbilt game conquered Tommy Armour today for will not receive a very happy surprise as they watch the Tornado in action against the Commodores.

We are wondering if they won't see several plays that they didn't know Tech had in the bag. Maybe they will and maybe they will not, but you may depend upon it that the Jackets will use everything necessary to keep their slate clean,

Our own personal opinion is that the Tornado of Saturday will be very different from that seen in any battle this year. Our opinion is that many tricks will be sprung which will be new to the spectators and perhaps even new to the opposition.

Be that as it may, the Tornado is facing its stiffest crisis of the season Saturday. Stop and think a moment. Four conference games in a tow to begin the season. Four games won but no let-down at any time. Then the tedious trip to the camp of the Irish and an artistic beating at the hands of the nation's best football squad. Then the natural reaction. Scrimmage this week at the flats has not revealed the usual snap in the squad. They are trying just as hard, but they are physically tired and, what is worse, they are tired of football.

pary a rest since the beginning of the season. If they win that game Saturday they must do so under the greatest mental handicap known to an athlete. They must face the powerful McGugin machine with staleness staring them it the face.

What's to be done? Perhaps nothing, and then, again, perhaps much. If every loyal Tech supporter would go to Grant field Friday and join the students in an old-fashioned "pep". meeting there could be no doubt in the minds of the players that their supporters are behind them to the man.

There should be a least 500 Atlantans going to Nashville in addition to the students. There may be that many, but whether planning to go to the game or not, every alumnus and follower of the Gold and White can do his bit by joining in the pep meeting Friday afternoon at

Petrels Are Ready For Game Saturday

Birds End Hard Work and Express Confidence of Winning Game With Presbyterian College.

BY FRED M'EACHIN.

The Stormy Petrels of Oglethorpe, having completed all of the rough work for the week, are now awaiting the arrival of the Blue Stocking Presbyterians and their annual encounter, which will take place Saturday afternoon en Spiller field.

place Saturday afternoon on Spiller to The South Carolinians are expected to arrive in the city this morning and take a final workout before the game Saturday. The contest with P.-C. will mark the fourth game of the season for the Petrels and incidentally the third S. I. A. A. game. In view of the fact that the local team was handed a 18-16 defeat last year, naturally they will be out for a victory and revenge at the expense of their rivals.

The Petrels have been working hard all week for the approaching encounter and seem determined to dispel the jinx which has pursued them for the past year. At the practice Thursday the Birds went through a dummy scrimmage against the rats and showed up mighty good. The main event of the matinee was the breaking up of forward passes, for which the Blue Stocking aggregation is quite famous. It will be remembered that a certain Mr. Stamps pulled off many diabolical capers in throwing forward passes last year which proved to be the downfall of the Stormy Petrels. This has been the outstanding weakness of the local's so far this season and apparently it has been remedied through the releases let his week like week this week like week as a certain of weaklings, but they all experts the releases let his mending the release of the local's of the local's so far this season and apparently it has been remedied through The Petrels have been working hard

To Operate Anyway.

If the interstate commerce commission does again refuse to approve the proposed Van Sweringen merger, presumably the Van Sweringens and their associates will continue to hold their Chesapeake & Ohio, Erie & Pere Marquette stock and continue to hold their Chesapeake & Ohio, Erie & Pere Marquette stock and continue to operate these companies independently. The such conditions, however, it was several to the van Sweringen merger, which have a new care to use orders, which means that the Fordpalms are likely to go into large production in the very near future. From any on every time the stock of an automobile accessory company moves up a point rumors will be heard that the company has just booked a large morter from Ford.

Dan Moody, the young red-headed governor of Texas, and Mrs. Moody are said to be living in the gubernatorial style upon the salary of \$4.000 that was fixed in 1876 by the state constitution. A recent move to increase the governor's pay to \$10,000 a year was defeated, causing the Moodys to resolve to "live within".

EXPLODED THE TORPEDO.

N THE NIGHT OF OCT. 27, 1864, CUSHING SLIPPED UP THE ROANOKE RIVER, UNOBSERVED IN THE DARKNESS, PASSED THE CONFEDERATE PICKETS, AND STEALTHILY APPROACHED THE RAM. WHEN HE REACHED THE LOG-BOOM THAT PROTECTED THE "ALBEMARLE". HE WAS DIS-COVERED BY THE SENTRIES, BUT RAN THE LAUNCH OVER THE OBSTRUCTION, THROUGH A HAIL OF BULLETS, AND SUCCESSFULLY

HE EXPLOSION TORE A CREAT HOLE IN THE BOTTOM OF THE "ALBEMARLE", AND SHE SANK IN A FEW MINUTES. OF THE BRAVE LITTLE BAND OF UNION SAILORS, CUSHING ALONE MADE HIS ESCAPE. AND CARRIED THE NEWS TO THE FLEET. CUSHING'S GREAT ACHIEVEMENT CLEARED THE WAY FOR THE ADVANCE OF THE FEDERAL NAVAL FORCES UP THE RIVER, AND SOON PLYMOUTH AND THE WHOLE DISTRICT FELL INTO THEIR HANDS. TOMORROW-THE FALL OF FORT FISHER
